

# INNOVATIVE SOLUTIONS FOR INDUSTRY EVOLUTION

At intelliSOLUTIONS, we are backed by almost 30 years of project management, construction and IFM industry experience, thus recognising the importance of precision, cohesion, and data-driven decision-making in today's industries. Having established ourselves as a market leader in our industry, we understand the importance of staying ahead of the curve by anticipating the evolving needs of businesses and delivering innovative solutions that redefine the landscape.

After years of in-house R&D and testing, we are proud to introduce the **intelliWORKFLOW** suite - an all-in-one comprehensive enterprise solution software work package designed to simplify and optimise every aspect of your operations and business processes.

**intelliWORKFLOW** package is a fully customisable modular software solution that streamlines enterprise resource planning for organisations of all sizes and complexities, from SMEs to MNCs. As modern businesses face unprecedented complexity and rapid digital transformation, we study and anticipate these trends to evolve, adapt and upgrade intelliWORKFLOW's functionalities to seamlessly integrate multiple workflows into a unified centralised system. From Project Management to Building and Facilities Management, Procurement, Inventory and Resource Management, Safety Compliance, Training and beyond, our modular enterprise software work package is able to seamlessly integrate into existing process workflows, ensuring operational continuity at all levels.

**intelliBUILD**

Web-based system to optimise project management, enhance collaboration, and paving the way for unified construction operations

**intelliCHECK**

Digital solution designed specifically for building management, focusing on electronic and M&E maintenance services and to digitalise workflows

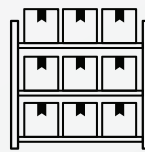

**intelliPROCURE**

Web based platform designed to streamline purchasing processes, optimise supplier relationships and drive cost savings for your organisation

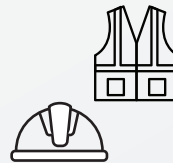

**intelliRESOURCE**

A comprehensive platform designed to enhance inventory control and workforce management for businesses

**intelliSAFE**

An electronic web portal and software system that is designed to adhere to safety compliance with government regulations by processing Risk Assessments (RA) and Permit-To-Work (PTW)

- Cost-Effective
- Developed by Market Leader with 30 Years Industry Experience
- Fully Customisable
- Future-Proofing
- Improves Efficiency
- Integrates into Existing Enterprise Systems
- Modular Components
- In-house Back-End Technical Support
